ANNOUNCEMENT 3/16/20

Farmers don't get days off and the crops still need to be planted. No one understands that better than Hillsboro Equipment and our team of stores. The safety and health of our customers and employees is our top priority and as such we've started implementing new measures to help our customers stay healthy and productive during this time.

Parts

As always, we will continue to keep all shared surfaces clean to ensure we keep our employees and customers as safe and healthy as possible. We are also more than happy to provide curbside parts pick up as well as delivery directly to the customer if necessary. Just call ahead to one of our 3 locations and we will strive to be as accommodating as possible.

Service

We will be implementing a new wipe down procedure when a machine comes into our shop, as well as, prior to its return to the customer. Whether you are in our store or we are at your place of business our employees have all been advised to maintain a personal/healthy distance- for your safety as well as theirs.

Sales

Our sales team at all locations is still ready to get you ready for Spring----they are just a phone call or email away. Our salesmen are still in house if someone does want to see a machine one on one, but like our parts and service departments will maintain a personal/healthy distance from customers for everyone's safety and health.

These are turbulent times, but we know this country needs farmers and we are committed to helping each and every customer while at the same time keeping ourselves and our customers safe.

Thank you for your business now and in the future,

Don Slama and family
